GC Steel Workers Ratify New Pact

Chemical Workers to Resume Negotiations In Meeting Tomorrow

A new three-year contract between Granite City Steel Co. and more than 3000 members of four United Steelworkers of America locals — reported to be one of the largest contract packages negotiated in the steel industry — was ratified by union members in two special meetings yesterday.

Acceptance of the company offer, which provides combined wage boosts and fringe benefits estimated at 90 cents an hour, was followed by announcement that negotiations between the steel firm and Chemical Workers International Union local 50 will be resumed at 10 a.m. tomorrow in offices of the U. S. Mediation and Conciliation Service, St. Louis.

Nearly 1000 members of the Chemical Workers union employed at the Granite City Steel Co. blast furnace department have been on strike since last Monday as the result of a dead lock over union wage demands.

Large Attendance
The new steel contract for mill workers who are members of USWA locals 16, 30, 67 and 86 was approved by a five to one majority in meetings held at the Labor Temple at 10 p.m. and 8 p.m. yesterday. Detailed tally of the voting was not released, but both meetings drew such large attendance that virtually every downtown parking space was occupied for many blocks about the meeting hall.

Thomas Griffin, subdistrict director of the United Steelworkers of America who headed the union negotiating team, estimated the total wage package at 90 cents per hour, including the wage increases and improved fringe benefits. The pact is retroactive to Aug. 1. He said the new contract calls for an average wage hike of \$2186 to be reached at the end of the three-year contract period. Griffin said annual wage increases will average \$400 the first year, \$750 in the second year, and \$1000 in the third year, for the total of \$2186 in additional wages over the three years.

The contract offer was finalized in negotiation sessions last Monday within a matter of hours before expiration of a contract extension. Union leaders agreed upon an extension of the old contract until the four USWA locals could vote on the proposal yesterday.

Furnace Repair Down
The contract was based on the 20-12-cent wage figure contained in basic steel contract settlements of last August, with increments in various job classes.

Dow Strike in 38th Day; No Talks Scheduled

Negotiations in an effort to settle the strike of 700 steelworkers at the Madison plant of Dow Chemical Co. remained at a standstill today as the result of a reported company demand that at least one member of the union bargaining committee be replaced.

No further contract talks were scheduled today, and George Becker, international representative of United Steelworkers of America Local 4894, said none will be planned until company officials drop their demand for the change in the makeup of the union's bargaining committee.

Company officials said meanwhile that they are ready to resume negotiations at any time and have notified the U. S. Mediation and Conciliation Service at St. Louis, Becker said, however, that he has been notified by letter by the company that the company's willingness to meet is contingent upon replacing Joseph Galia, a member of the union bargaining committee.

Hearing Postponed
A hearing scheduled Friday of a circuit court petition seeking contempt of court citations against the union and striking steelworkers on Sept. 18 was postponed. The contempt citations are sought by the company because of alleged violations in three specific instances.

No hearing has yet been set for the charges of contempt contained in a National Labor Relations Board proceeding filed by the union. Becker said the charges are founded primarily upon the company's demands for a change in the bargaining committee membership.

Thomas Griffin, subdistrict director of the United Steelworkers of America who headed the union negotiating team, estimated the total wage package at 90 cents per hour, including the wage increases and improved fringe benefits.

Madison Woman Held After Man Is Shot
Madison police this morning were holding Mrs. Lucille Smith, 21, of 133 Garech Street, who was arrested after the shooting of her husband, Charles Smith, 24, at her apartment about 10:50 p.m. yesterday.

Mrs. Smith told officers that she fired from her husband, from whom she has been separated, and his way into her apartment and threatened her. Police quoted the woman as saying that Smith came to her apartment and asked for a photograph and a pair of shoes he had left there. She said when she handed them to him, he forced open the door and pushed her.

She said she had a .22 caliber pistol under a chair cushion. She said when he threatened her, she obtained the gun and fired one shot. The bullet struck Smith in the abdomen, and he died. He was treated at St. Elizabeth Hospital and transferred to Jewish Hospital at St. Louis. He was in good condition this morning.

Police said the woman told them she threw the gun in a vacant lot as she ran to the home of a neighbor to call police. The gun had not yet been recovered this morning.

Area-Wide United Fund Drive Begins

People Helping People Is Campaign Theme; Bells to Ring Tonight

"People Helping People" is the theme of this year's \$387,104 United Fund Campaign that opens officially at 6:30 this evening with the ringing of church bells for the start of the annual kickoff dinner at the YMCA.

All Quad-Cityans are being invited to "step into the winners' circle" by making a pledge to any of the several hundred volunteer workers on the teams of sections and divisions seeking to reach and top the goal by the Nov. 13 deadline.

Headlining this year's campaign are Thomas Remington, president of the Castings Division of General Steel Industries, who is general chairman, and George Becker, a staff member at the subdistrict office, United Steelworkers Union, who is vice chairman.

19 UF Agencies
This year's \$387,104 goal is 5.4% over the amount raised last year's campaign, and both Remington and Becker pointed out that requests to the United Fund agencies for services "are going up and costs of providing the services also are going up."

The drive leaders stressed that allocations to the agencies are essential and were determined through a study of budget requests by a committee of Quad-Cityans.

With the start of the campaign this evening, the hundreds of volunteer workers will begin making calls on industries, business firms, employee groups, clubs and individuals.

First reporting session for the drive will be on Wednesday, Oct. 16, with four others to follow on Oct. 23, Oct. 30, Nov. 6 and Nov. 13.

Emphasis on Youth
Tonight's kickoff dinner will place emphasis on the youth of the Quad-Cities. Thomas Kolesa, who heads the publicity and promotion committee for the drive, said that 50 youth leaders have been invited to attend and will be guests of business and industry.

The youth leaders include youngsters who are presidents of young people's organizations or those with special achievements, such as Eagle Scouts. The dinner is a \$2.50 "dutch treat" affair.

Youth also will be featured in the program, with Miss Granite City, Letitia Marrison, singing the National Anthem after the church bells ring. She will sing several other selections and will take part in a special skit with Kolesa.

Only brief talks are being planned for the adult audience, according to George Eubanks, Army Depot public information officer, who will be master of ceremonies.

The speakers will include Remington and A. P. Steinhilber, works manager of American Steel Foundries, who is president of the drive.

Rutledge to Run For Mayor—If Parthey Declines

Fourth Ward Alderman Paul Rutledge, 2508 Benton street, today announced his candidacy for mayor of Granite City. At this time, Rutledge said, he is not seeking a second term.

Rutledge, who has been an alderman for 20 years, is an engineer at the American Steel Foundries plant here, and served as companion Fourth Ward alderman with Parthey for over 15 years.

In making his announcement today, Rutledge said: "I have met informally with a group of friends and past supporters who have been urging me to be a candidate for mayor of Granite City. At this time I would like to announce that I have made a firm decision to run for mayor of Granite City next year if Mayor Parthey does not run again."

"I plan to take an early retirement from my present employment and will be a full-time mayor in the tradition established by Dan Parthey."

"I feel my 20 years as an alderman give me the experience with city problems that is essential to successfully discharge the duties of the office of mayor."

Mayor Parthey, who met yesterday at his home with about 20 local business and civic leaders, said today he has not yet decided if he will run again. "I'm postponing my decision until after the November general election," Parthey said this morning.

Burglars Steal \$1500 at Madison Ice Cream Shop

Three Shots Fired in Strongarming Attempt; Other Area Thefts

Burglars broke into the Dairy Queen restaurant, Skeen street and McCambridge avenue, Madison, late Friday night or early Saturday morning, thoroughly ransacked the shop and escaped with more than \$1500 in cash, Madison police reported Saturday.

Also taken were two cash register drawers containing an undetermined amount of change.

An electric adding machine and a floor sander were found by the rear door, where they apparently had been placed by the burglars.

The burglary was discovered at 1:30 a.m. Saturday by cruising police who saw they had no lights were out in the Dairy Queen shop. They found a rear window open and called Louis Baker, the owner.

They found drawers piled open in a desk in a back room. The thieves took a total of \$1500 in bills and change from one of the drawers and about \$425 from another drawer, the owner said.

The intruder apparently pulled the main switch to cut off all lights in the building. Entry was gained by climbing onto a stack of milk cans and crawling through a small window in a restroom. The window was forced open.

Police said every drawer in the kitchen was ransacked and articles were strewn throughout the shop. A small crowbar apparently was used to pry open locked drawers, police said.

Strongarming Attempt
A strongarm robbery attempt was made at 3:15 a.m. Sunday at 16th street and Madison avenue against Charles Frandsen of the police unit at the Granite City Army Depot. His coat and trousers were torn in the scuffle and he was injured.

Two Negro men are being sought, both tall and young. They were in a 1964 beige auto which headed south on Madison avenue. The car contained several other people and was walking in the opposite direction, reached them.

One of the boys told police that Jordan had gone into the car. (Continued on page 3, col. 2)

State Officials to Help Honor Rep. Harris

Many state officials and legislators are making plans to attend a testimonial dinner honoring Representative Lloyd "Curly" Harris of Granite City at the Southwestern campus of Southern Illinois University Monday evening, Oct. 21.

The event is being sponsored by the Chamber of Commerce of the Tri-Cities and will be held jointly with the 28th annual meeting of Chamber members. President Clifford Blankenship and other 1958-60 officers will be installed.

As an inducement to high regard in which Rep. Harris is held, virtually all areas of the state and all levels of government will be represented at the dinner. An attendance of more than 500 is anticipated.

Tickets costing \$5.00 each are being sold by the Chamber of Commerce office, 1831 Delmar avenue. Checks are to be made payable to the Chamber of Commerce of the Tri-Cities—"Curly" Harris Dinner.

Many messages arriving in addition to reservations for the occasion, the Chamber officials are receiving a large number of congratulatory messages expressing appreciation for Harris' long and helpful service in the Illinois General Assembly.

Born in Montpelier, Ind., Rep. Harris has spent most of his life in Granite City, where he resided at 223 Aubrey avenue with his wife, Anna. He has two married sons, five grandchildren and one great-grandchild.

First elected to the Illinois House of Representatives in the 59th Assembly which convened in January 1935, he served two terms, but then did not seek re-election.

After a two-year absence, in 1939-40, he again was elected to the legislature in November 1940 and has served continuously since then, for 14 consecutive terms, and a grand total of 32 years of service. He did not seek election to the 78th Assembly, which will begin its session on Jan. 8, 1969. The 78th Assembly technically was re-elected in a session until that date, but its work has been completed.

State Officials

as chairman of the House Appropriations Committee, he became one of the most influential figures in Illinois governmental history.

When he took other legislative leaders that he could personally vouch for the importance and wording of proposed legislation, it usually was assured of overwhelming approval.

Among the major accomplishments for which he is given a substantial share of the credit is the establishment of a major state university in Madison county. Top officials of SIU are expected to be present at the testimonial dinner to voice thanks for his leadership.

The specific location of the dinner at SIU's Southwestern campus is the Meridian Room, located in a newly-opened section of the University Center. It will be the first banquet to be held in this room.

A reception at 6:30 p.m. Oct. 21 will precede the 7 p.m. dinner.

is chairman of the annual meeting and will serve as toastmaster.

Howard W. Kaseberg, retiring Chamber of Commerce president, will briefly review the past year and Blankenship safety and training director of the A. O. Smith Corp. auto frame plant in Granite City, will outline future plans.

Biographical information on Rep. Harris will be the principal presentation of the evening.

Kaseberg will conduct the installation. New officers besides Blankenship are Bill H. Terrell and Theodore Berger, vice-presidents, and Melvin C. Wilmsmeyer, treasurer.

Retiring officers in addition to Kaseberg are Leo H. Konzen and C. E. Townsend, vice-presidents, and Edwin G. Schmitt, treasurer.

New Chamber directors are Berger, Terrell, Wilmsmeyer, Leo Wolf, Al Amberg, F. R. d. Village Shopping Center, old 19 members of the Tri-Cities chapter, National Secretaries Association, and three guests of his experiences while working with the natives of Guatemala in recent years.

The meeting was held at the Round Table restaurant in Collinsville Thursday evening.

Dr. Prosser first heard of the needs while president of the Doctors' and Dentists' Guild of his church. He made his first visit in 1964 and upon his return encouraged his parish to raise money to buy dental equipment which was shipped to Guatemala.

Dr. and Mrs. Prosser later returned to Guatemala, where they set up the first dental clinic in the area. He told the secretaries that Guatemalans, 95% of whom are illiterate, have extensive dental decay due to improper diet and care.

Although they were told to charge nothing for the fillings or extractions, the Prossers were told that the people were proud and that some charge should be made. Current prices are 25 cents for extractions and 50 cents for fillings.

The Prossers spend from two to four weeks a year working in Guatemala. He said the need for other dentists to volunteer their services for a week or two at a time is great. The only attraction, other than helping others, is the fact that all expenses are tax-deductible items, he said. Photographic slides were shown.

Secretaries Are Told Of Life in Guatemala

Dr. Thomas E. Prosser III, dentist with offices in the Loll Village Shopping Center, told 19 members of the Tri-Cities chapter, National Secretaries Association, and three guests of his experiences while working with the natives of Guatemala in recent years.

The meeting was held at the Round Table restaurant in Collinsville Thursday evening.

Dr. Prosser first heard of the needs while president of the Doctors' and Dentists' Guild of his church. He made his first visit in 1964 and upon his return encouraged his parish to raise money to buy dental equipment which was shipped to Guatemala.

Dr. and Mrs. Prosser later returned to Guatemala, where they set up the first dental clinic in the area. He told the secretaries that Guatemalans, 95% of whom are illiterate, have extensive dental decay due to improper diet and care.

Although they were told to charge nothing for the fillings or extractions, the Prossers were told that the people were proud and that some charge should be made. Current prices are 25 cents for extractions and 50 cents for fillings.

The Prossers spend from two to four weeks a year working in Guatemala. He said the need for other dentists to volunteer their services for a week or two at a time is great. The only attraction, other than helping others, is the fact that all expenses are tax-deductible items, he said. Photographic slides were shown.

tavern to "buy a six-pack." Police waited until the boy came out of the tavern with the beer and arrested him. They also arrested Esther Phillips, 22, of 1860 Poplar street, barmaid in the Tavern. Today was charged with purchasing liquor as a minor and the barmaid was charged with selling alcoholic liquor to a minor.

The three boys in the car were taken to headquarters, but later released.

Arrest Ballentine

About 10:50 p.m., Madison officers reported they received a call from Johnny Lewis' tavern, Fourth street and Madison avenue, that Harold Ballentine was creating a disturbance there. Police said they went to the tavern and learned Ballentine had left.

A short time later officers received a second call from the Lewis tavern. They found Ballentine there, and arrested him on a charge of disorderly conduct. While there, police saw two boys in a booth.

After questioning the youths, police arrested them and charged both with purchasing liquor as a minor. They also arrested Donna Kovalski, barmaid in Johnny Lewis' tavern, on a charge of selling alcoholic liquor to a minor. She was released on bond pending a hearing.

Police said the boys were Larry David Brown, 19, of 1529 Fifth street, Madison, and Leonard Barton Jr., 19, of 2137 Washington avenue.

Ballentine, who told police he has no permanent address, was released on \$25 cash bond pending hearing on the disorderly conduct charge.

Maers said that it has been his practice in such cases to recommend a \$100 fine for the first offense, a \$200 fine a second offense, and then to revoke the license of the offending tavern in the event of a third offense.

"There's one thing I won't stand for," Maers, "and that is the sale of liquor to minors. Most of our tavern operators are good people and sometimes they get fooled by boys 18 and 19 who look a lot older than they are. But they also get careless at times, and they are going to have to pay for their mistakes."

was shut down after striking Chemical Workers posted signs and a single picket at a gate used by contractor's workers, who originally were permitted to enter the plant to carry on the repair work.

Chemical Workers said they had agreed at the beginning of the strike to permit the repair workers to continue on the job but that the company has been sending trucks and cars through the gates and that it became necessary to take new action.

"We are not picketing the gate in force and are making no efforts to keep anyone out," a union official said. "We just put up an informative sign and all workers (including the construction workers) are honoring the appeal."

Union's Demands Frank Ronco, Collinsville, business agent of Chemical Workers Union Local 50, told the Press-Record that the deadlock in negotiations resulted from a demand for an additional 50 cents per hour wage boost over and above the increases of the basic steel package on which Ronco said the company based its contract proposal.

The steel contract wage figures are contained in new contracts recently ratified by United Steel Workers of America employees at Laclede Steel Company's Madison plant and American Steel Foundries provides for a 20-cent wage increase for 1968 and 12 cents per hour in each of the 1969 and 1970 years.

Ronco said the additional 50 cents per hour sought by the Chemical Workers represents a front end window was broken when the car was recovered.

Miss Holtz Is Elected

Miss Eulalia Holtz, Madison county clerk, has been elected secretary of the Illinois County Audit Advisory Board, State Auditor Michael J. Howlett announced Friday. The board is appointed by him and chooses its own officers.

restoration of "cost of living" provisions "which we should have had in the old contract." He explained that the old contract which expired at midnight last Monday provided for cost of living raises but was "frozen" at a maximum of 20 cents an hour.

The 50-cent per hour boost sought in current negotiations would bring the Chemical Workers wages up "to what they should be now," Ronco said. He said the additional raise sought by the striking Chemical Workers along with the 20 cents per hour increase of the basic steel package for the 1968 year would mean a total wage increase of about 70-cents per hour. The 50-cent phase of the increase would fluctuate during the 1969 and 1970 years in accordance with the cost-of-living index, he noted.

Ronco said that the union had received notice from the company that company payment of insurance premiums would be cut off "within 30 days," and that the company already had discontinued payment of sick benefits.

Treated for Hand Wound Harvey Williams, 20, of 11 Hill street, Eagle Park, is recuperating from a bullet wound through his right hand suffered Thursday when shot by the occupants of a passing motor auto as he was walking on Roosevelt street near Terry street. The car forced him to step off the road and the shooting incident. He was treated at St. Elizabeth Hospital.

McNeal-Gifford Vows At 3rd Baptist Church

Miss Karen Sue Gifford and Thomas Paul McNeal were united in marriage Saturday at Third Baptist Church, with Rev. Eugene Phillips officiating at A-line fashion. Her flowers were the two o'clock double ring ceremony.

The former Miss Gifford is a daughter of Mr. and Mrs. George L. Gifford, 2306 Washington avenue. The bridegroom's parents, Mr. and Mrs. Eugene T. McNeal, reside in Rock Island, Ill.

Appropriate wedding selections were furnished by Mrs. Ronald Parker at the organ. She also accompanied the soloist, David Richardson, assistant pastor of the church.

Immediately following the ceremony, a reception was held in the church fellowship hall, with approximately 100 guests attending.

The bride was educated at Granite City and Belleville schools and has been employed at the G. H. Walker Investment Co. in St. Louis.

Mr. McNeal, who attended schools in Rock Island, was discharged last month from the U. S. Air Force, after serving four years. The newlyweds plan to make their future home in Rock Island.

The former Miss Gifford was escorted to the altar by her father, who gave her in marriage. She chose a bridal gown of white tulle, fashioned along traditional lines and enhanced with beaded appliques tracing the front of the gown from the bateau neckline to the hem.

Long tapered sleeves were fitted into the molded bodice and a cathedral train, etched with matching appliques, cascaded downward from the back waistline.

A very bouffant veil of sheer tulle, designed in three tiers, was secured with a headpiece of re-embroidered flowers. She carried a cascade bouquet of white carnations and lilies of the valley.

Miss Linda Skidis of Belleville, the maid of honor, wore a full-length jonquil yellow gown of

peau, overlaid with sheer chiffon. The bodice was fitted and sleeveless, with a rounded neckline, and the skirt was styled in A-line fashion. Her flowers were a cascade of tinted carnations.

Mary Lois Gifford, a sister of the bride, was the flower girl. She was dressed in a floor-length white tulle gown featuring a lace bodice, short sleeves and rounded neckline and carried a nosegay of white and yellow pom poms.

Serving as best man was the bridegroom's brother, Michael McNeal of Rock Island, and the groomsmen and ushers were brothers of the couple, Mark Gifford and Dennis McNeal.

Michael Harper of St. Louis, a cousin of the bride, was the ring bearer.

4th Postwar School Bond Issue Building Proposal in GC

Granite City school district voters on Dec. 7 will decide the fate of the fourth post-war bond issue construction proposal, a \$4,750,000 project consisting of a new junior high school, two grade schools and two additions on the high school-Coolidge junior high campus.

Previous bond elections were conducted on May 2, 1953, Nov. 2, 1957, and May 23, 1964, authorizing school buildings totaling \$3,840,000, \$2,200,000 and \$2,300,000, respectively.

The new construction plan is based on a report from citizens' committee co-chairmen, Jon Mullen and Leo Konzen.

"I believe the two men in particular and the other citizens who worked with them deserve the gratitude of not only the board of education but of the community," Supt. Bob J. Davis has commented to the school board.

Many hours of study, discussion and debate were involved. It has been a task that each entered into with determination, even though their own schedules were pressing. It has been a pleasure to work with each of them.

"Community Unit School District No. Nine is faced with a continuing growth problem, not only at the present time but also for a probable prolonged period of time.

9 New Schools Since 1933
"The district has endeavored in the past to keep pace with this problem. Since 1933, this community has built three junior highs, six elementary schools and a cafeteria-class-

room facility at the senior high.

In addition to this, the following additions have been made to various schools:

Prokhor, 1957, six classrooms and a kitchen.
Marshall, 1957, four classrooms, kitchen and two rest-

Mitchell, 1958, converted stage and dressing rooms to two classrooms; 1963, six classrooms and a boiler room; 1964, five classrooms, two special education rooms, teacher lounge, restrooms and a storage room.

Nameoki, 1959, storeroom converted into a classroom; 1961, shower rooms converted into four small rooms for special education; 1962, four classrooms added; 1965, cafeteria partitioned for music room.

High School Expansion
Granite City high school, 1959, three vocational shops and 20 classrooms added.

Maryville, 1961, six classrooms; 1966, two portable classrooms.

Wilson, 1961, four classrooms; 1964, two classrooms.

Coolidge junior high, 1963, multi-purpose room, 10 classrooms, extension of cafeteria.

Niedringhaus, 1964, four classrooms, two restrooms, teachers' lounge, coal bin converted to classroom.

Prather junior high, 1964, nine classrooms and restroom facilities.

Stallings, 1965, two portable classrooms.

Emerson, 1966, two portable classrooms.

Lake, 1966, two unfinished restrooms converted into special education area.

Logan, 1966, two portable classrooms.

McKinley Project In 1968
McKinley, 1968, old restroom converted into a classroom; 1968, auditorium converted into two classrooms.

Washington, 1968, two portable classrooms.

Webster, 1968, cloakroom converted into a counselor's office, two portable classrooms installed.

Central junior high, 1968,

storage room converted into a counselor's office; 1967, storage area and classroom converted into a dressing room and shower area.

Parkview, 1968, four classrooms being added this fall.

"With all of this, we are currently renting four rooms from area churches, and have also changed attendance boundaries to equalize loads and to use each building more effectively," Supt. Davis notes.

"According to projections by the Southwestern Illinois Metropolitan Area Planning Commission, the senior high will virtually double in population by 1968.

89% of GCBS In Use
"We are now operating the facilities here at approximately 89% of total use. In other words, most classrooms are in use seven periods a day. At the present time we have 2965 enrolled at the high school.

"We cannot finance the building of a new senior high at this time. Estimated costs range from \$7 million to \$8½ million, and we have slightly under \$6 million in bonding power available. Even if all of this were used to build a senior high with less facilities, we would have nothing left for the elementary and junior high needs.

"According to the projections of SIMAPC, the elementary enrollment will increase approximately 2930 by 1968.

"By 1970-71, it is estimated there will be 9070 in kindergarten through the sixth grade. At the present time we have 8211.

Phase Out Old Schools
"We are using elementary buildings that should be phased out by 1968—Washington, Stallings, McKinley, Logan Annex and Webster. How soon and in what order such phasing out process should take place is something to which the board must give serious consideration.

"The junior high situation has been eased somewhat this year with the opening of Grigsby junior high school. However, it will not take too many years to find these facilities again overcrowded.

"Here again, as with certain elementary schools, we must consider the future of Central junior high school. This building has served this community well and long, but it cannot do this forever. It is not the best facility for school due to its location, site size and age.

"These are the problems. The solutions will not be easy, nor will they be quick. This school district has a long, hard pull ahead of it.

No Permanent Solutions
"The solutions to our present problems should not lead citizens to an assumption that, if certain buildings are built now, the problems will be solved for several years; they will not. Whatever steps are taken will be only the beginning.

"The committee's report recommends that we seek public approval for the construction of two new elementary buildings, a junior high, and additions to Coolidge and the senior high physical education complex.

"Following would be the plan: 1. Convert Coolidge into part of the senior high school and house all pupils in grades 9-12 on this campus. This could house a population of approximately 4700 if additional classrooms and physical education facilities were added.

2. SIMAPC does not give a projected grade breakdown, but from the study conducted by the school district we will reach a pupil population of 4729 in grades 9-12 during the 1974-75 school year. Prior to that time, additional decisions will have to be made concerning the high school.

Junior High Outlook
"2. Should Coolidge be converted to part of a 9-12 complex, we would convert our grade grouping at the junior high level to grades 7-8. With this conversion, our remaining junior highs could house 2430—Prather 900, Grigsby 750 and Central 780.

"However, consideration should be given to phasing Central out. The building is the oldest junior high in the district.

"Its location is not good, and its site size is only eight-tenths of an acre. It is not possible to conduct the outside activities needed at a junior high on this size area.

"To accommodate these activities, it is necessary to send the Central pupils to Emerson for outdoor physical education and athletic practices.

"If Central were to be abandoned for pupil use, it should be replaced with a new junior high. If this junior high were built to house a 1000-pupil capacity, it would allow the district breathing space until approximately the 1975-76 school year.

Nucleus of New High School
"We have the property available to build a new junior high in the Wein tract which we are purchasing under a contract for deed (65 acres at Maryville road and Route 208-Nameoki road).

"This facility could also become a nucleus for a new high school.

"In the future, vocational classrooms and other special area rooms could be added onto an existing facility, thus allowing the school district to acquire a new high school without the initial large bonding needed to accomplish it at this time.

Grade School Locations
"3. Additional elementary schools will be needed. At the present time, the district owns acreage on the Old Altan road (12-acre site in the Norwood subdivision area).

"If a new elementary school were located there, we could house over 600 elementary pupils living west of the railroad tracks. This would relieve pressure at Mitchell, Nameoki and Maryville.

"In turn, Mitchell could relieve some pressure from the Stallings and Parkview areas, which are growing rapidly.

"If the district could also place another elementary school on the Wein tract, and if both schools were built to handle 700 pupils each, it would allow the district to house our elementary pupils until approximately the 1972-73 school year, at which time it is estimated that our elementary enrollment will be 9560 (SIMAPC estimate) in grades K-6.

"If any older elementary buildings were phased out in the meantime, the time schedule for building other elementary schools would be reduced."

Today, important voices urge the Nation to see what is happening in our cities. We Church leaders are called to action; the report of the National Advisory Commission on Civil Disorders, and many other books, unanimously indicate that our Nation is in a condition of crisis. Our conscience as Clergymen of the Quad-Cities will not allow us to remain silent. Therefore, we, individually and jointly, publicly declare that:

We believe that every person has the moral and constitutional right to purchase or rent a home wherever he can afford to do so without limitations imposed by his race, creed, or his color. Therefore, we will welcome to our neighborhood, responsible neighbors without regard to race, creed, color, or national origin.

Alton Steamrollers Warriors 46-7

GCHS grid Warriors' "impossible dream" of upsetting powerful Alton proved to be the victors here Friday night as the visitors rampaged to a 46-7 win which left them and Collinsville atop the Southwestern Conference standings with 2-0 records.

Fullback Don Sackman and Halfback Gerry Wilson lived up to impressive scouting reports by tallying two touchdowns apiece, and Quarterback Mike Jeffries scored one TD and passed for another.

The Warriors, now 0-2 in league play and 0-3 overall, hit paydirt only in the second quarter, when Fullback Jim Greenwood went over.

Loose Early Gamble

GCHS was in trouble from the start. Gambling with a surprise outside kickoff by Jerry Monahan, the Warriors saw Alton recover on its 45. On the first play from scrimmage, Sackman, 5-11, 175-pound senior, broke through the middle of the line and got loose for a 55-yard touchdown. Jeffries kicked the extra point for a 7-0 lead with only 23 seconds gone.

Granite City returned the next kickoff to its 30 and earned a first down on a six-yard gain by Halfback Jim Rollins and a four-yard run by Greenwood. But the next two plays gained nothing and Gary Hagen of Alton then recovered a fumble on the Warrior 38.

Sneaky Way to Score
Jeffries, a 6-3, 215-pound giant, utilized runs by Wilson, Joe Connell and Larry Bosow to work the ball to the one-yard-line, from where the signal caller sneaked across. Warrior Frank Mehelec blocked the kick for the point after touchdown.

From its 30, GCHS advanced on a 13-yard left tackle trap, a four-yard right trap and a six-yard gain around end, all by Rollins.

After an incomplete pass, Halfback Don Haddix spurred five yards to reach the Redbird 42, but a 15-yard holding penalty forced a punt. GCHS immediately held Alton but on the punt exchange found itself on its 14.

98-Yard GCHS Drive
Gains of two yards by Quarterback Roger Belsh, seven by Rollins, 15 by Dave Evans, 18 by Haddix and five by Greenwood brought the ball to midfield as the first period ended.

The drive continued after the teams traded ends of the field, with Evans, Belsh and Haddix helping. Greenwood drove across from the three yard line and Monahan booted the extra point to cut the deficit to 12-7.

The match went 16 plays. However, two plays later, Sackman broke several tackles and sprinted for a 75-yard TD run up the middle.

GCHS drove from its own 32 to the Alton 42 before punting.

The Redbirds returned a punt from the 14 to the 30, and Wilson scooted 46 yards to give his team ideal field position. He dashed around end to score from four yards out.

Jeffries added both extra points for a 21-7 lead. Just before halftime, it went to 33-7 as Jim Moore intercepted a pass on the Warrior 22 and ran into the end zone. Monahan blocked the kick for the extra point.

GCHS received the second half kickoff and moved to its 49 but had to kick and Alton traveled 84 yards in 11 plays, the last a nine-yard TD pass to Randy Bailey. Again, the point after touchdown kick was blocked.

The Warriors threatened late in the third period and early in the last quarter, powering from their own 38 to the Redbird two, with Evans, Rollins, Belsh and Greenwood leading the way.

Stopped Yard From Goal
However, a final dive by Greenwood was stopped short of the goal and Alton drove 90 yards for a TD, tallied by Wilson on a five-yard carry. There were eight running plays and a penalty against GCHS for tackling by a face mask.

A GCHS drive got nowhere and Alton moved to the Warrior nine as time ran out. Each team gained 16 first downs, the Warriors gaining 194 yards in 57 runs and 22 yards on four of 10 passes, of which one was intercepted. There were one fumble, a 24-7 yard punt average and 99 yards in penalties. Alton rushed 391 yards in 32 carries, passed 26 yards on two of six, punted 27 yards and was penalized 70 yards.

Stagner later scored on another 60-yard run and Mel Stroud picked up a fumble to go in for a 15-yard touchdown. Wallace kicked three extra points.

MHS Down But Not Out, Rallies to Win 32-24

Trailing at halftime 18-12 and then seeing the kickoff run back for a touchdown to make the score 24-12 the Madison high school football Trojans became so fired up that there was no stopping them and they won a Midwestern Conference game 32-24 at Triad Friday night.

Reacting immediately to the 90-yard kickoff return by Ed Bort, Madison took the ensuing kickoff and headed goalward, aided by a 16-yard run by John Ervin and a five-yard carry by Shaw. Fullback Dale Clinton scampered the last 15 yards.

The tying touchdown followed as MHS broke up a Triad (Troy-St. Joseph-Marine) punt attempt, helped by a bad pass from the enemy center, and took possession on the Triad five-yard line.

Clinton scored again, for his third TD of the game, and Coach Alvin Vonder Haar called Harold James to the sideline

and noted that a successful extra point kick could put Madison ahead 25-24; James responded accordingly and MHS regained the lead.

Block Second Punt
The Trojans in the fourth period held the Knights and again blocked a fourth down punt to recover on the five-yard line. Quarterback Jim Scott passed to Eddie Hilton on the first play and James converted for an unbeatable eight-point margin.

Vonder Haar related that "during the halftime we went over the defense and explained that we were jumping too quick and overrunning the play, leaving holes that Triad had taken advantage of."

"Instead of telling them to hit quicker, we told them to slow down and be sure that when they hit they hit their man and did not overrun him."

"We came out in the second half and did so well that they

ended up with minus yardage rushing and got only 52 yards in the air for a total of only 28 net yards.

"But it took a lot of drive on our player's part to come back in the second half, have the kickoff returned for a 90-yard touchdown and still keep their poise."

"We know that we couldn't just give up, so the boys really went to work. They realized how close they were to defeat, and did not want the bitter taste again after dropping the first two games to O'Fallon and Rosary."

Trojans Score Quickly
The Knights had kicked off to the Trojans to start the game and Madison managed to score seven plays later, driving for 65 yards, with Wayne Shaw, sophomore halfback, carrying for the last two. The extra point kick failed.

The Knights retaliated with

three second-quarter TDs, the first in a series that started on the Triad 40; the final 26 yards were run by Bort, and again the extra point was blocked.

Madison again broke out into the lead as Clinton went off tackle for 25 yards.

Passes Provide Triad Lead
But Triad came right back on a nine-yard pass play from Stuart Weider to Bruce Blumer, and just before halftime the same combination clicked for a 37-yard TD pass.

Madison had 21 first downs, 313 yards rushing, 82 yards on eight of 16 passes, with three interceptions, punted twice for an average of 18 yards and lost 105 yards in penalties.

Triad totaled 13 first downs, minus 26 yards rushing, 52 yards on six of 10 passes, with one interception, punted four times for an average of 36 yards, lost three fumbles and lost 35 yards in penalties.

Venice Steps Up Plans to Raze Unusable Homes

Plans for demolition of sub-
standard housing in Venice as
the units become vacant were
intensified by the Venice city
council Friday night following a
report by city health and build-
ing inspectors on five additional
residences alleged to be in a
state of disrepair.
Building Inspector William
Baucum and Health Inspector
William Griggs also reported
that a decision is to be made
this week as to whether the
old American Legion building at
Mercedia and Douglas streets
will be remodeled to
comply with city building codes
or will be torn down.

The Venice council recently
initiated a program to phase
out dilapidated and ramshackle
houses by razing them, particu-
larly in instances where the
houses are deteriorated to the
point that they cannot be re-
paired to make them habitable.
Meanwhile the city has author-
ized a survey by the Southwest-
ern Illinois Metropolitan Area
Planning Commission to develop
a program of housing construc-
tion.

The plan would involve con-
struction of houses, a few at a
time, which could be sold
under liberal financing terms to

families now living in substand-
ard structures.
The vacated properties then
would be demolished and more
new units built on the vacated
land.

The city street department is
now razing the last of five old
houses referred to the council
by council members and city
inspectors about six weeks ago.
Of the five locations referred
to the council for action Friday
night, four are vacant, the in-
spectors said.

They are located at 1000 Bis-
sell street, 1005 Calhoun street,
1004 Calhoun street and 1143
Logan street.

The other, located on Douglas
street, is in extremely bad con-
dition but is occupied by a fam-
ily that includes about ten chil-
dren, the inspectors reported.
This location will not be included
on the demolition list until the
family can find other quarters,
council members decided.

Special Services to Needy Provided by UF Agencies

Service through home visits, special functions, schools and office consultations is provided by three United Fund agencies whose total administrative expenses for the 1969 Tri-Cities United Fund appeal amounts to \$15,750.

The Granite City Association for Aid to Retarded, a group of parents, teachers and other interested persons, furnishes assistance to special education classes in city schools, and through Saturday programs, day camp and special events for youngsters who otherwise would have no chance to enjoy the things other children take for granted.

Mrs. Evelyn Gavin, GCAR executive director, said that a lack of teachers trained in this specialized field limits the number of children who may attend classes. The association seeks to provide more teachers by offering annual scholarships to students planning to enter this area of the teaching profession.

An estimated 300 youngsters are in need of some degree of service, the association director said. The present capacity in Community School Unit District 9 is limited to 85 daily attendance in six classes, she pointed out.

Mrs. Nelma Black serves as president of the Granite City Aid to Retarded Association, which will receive a 1969 allocation of \$600.

Family Service Agency

Non-sectarian family counseling is provided by skilled, highly-trained caseworkers who assist clients in resolving such problems as marital or parent-child conflicts, child behavior, personal social adjustment and vocational and economic problems through the Family Service Agency of Southwestern Illinois, an agency of the Tri-Cities United Fund.

Mrs. Anita Kolesa, of Granite City, who recently was named counselor and caseworker for the agency in the Quad-City area and other parts of Madison county, reports that in 1967 a total of 145 interviews were conducted with local residents, involving 48 families.

The agency provides service through counseling interviews in its office, where caseworkers seek to bring out and make the client aware of the basic under-

lying causes of the difficulties for which he is asking help. In this way, Mrs. Kolesa pointed out, the person is helped to see things in better perspective and to clarify his thinking on decisions.

Counseling may require only two or three consultations or continue for several months, she explained, noting that the average time necessary is nine to 12 consultations over a two- or four-month period.

Interviews are confidential and fees, based on family income, are graduated so that everyone can afford the service, Mrs. Kolesa said. Major financial support for the family

Service Agency, however, is furnished through United Fund campaigns in area communities. Next year, the agency will receive a \$4500 appropriation, an increase of \$300 over the 1968 allotment.

Visiting Nurses
Registered professional nurses with special training in public health nursing provide care and treatment to many Quad-Cityans who are confined to their home or too ill to visit their physician's offices.

The nurses are members of the Visiting Nurses Association, one of 19 participating agencies in the Tri-Cities United Fund. Each person administered to

through the visiting nurses program must be under the direction and supervision of a qualified physician, who refers the patient to the association for home care.

Rehabilitation nursing also is available, with the trained professionals using physical therapy to assist patients regain their self-sufficiency or to require a minimum of care. Patients are asked to pay for visits received, but fees are graduated according to financial status of each family.

The association reports that 186 nursing visits and 96 physical therapy visits were made to 90 patients in the Quad-Cities during 1967.

Through a special arrangement with the United Fund, visits to cancer patients in this area are underwritten from the Health Services Fund, apart from the allocation to the Visiting Nurses Association. Next year's appropriation will be \$6050, a \$750 increase over the current year.

VISITING NURSE Association of the Tri-Cities Area United Fund provides a needed service to the sick and aged of the community.

Nightly Services at Pontoon Beach Church

Evangelist Tom McGee will conduct a "crusade for Christ" nightly at 7:30 at the Pontoon Beach Church of Christ, 4039 Pontoon road, through Friday, it was announced by Lowry Sutherland, minister.

Chairmen of special events are Aline Robertson, ladies' night, tonight; Lorene Richerson, youth night, tomorrow; Vivian Ellis, ladies' night, Thursday; and Jane Ellsworth, teen night, Friday. Song evangelist is Russ Giebler, a senior student at the St. Louis Christian College in Florissant, Ill. A graduate of the Lincoln, Ill., Christian College, McGee previously had ministries in Patoka and Villa Grove, Ill. He travels widely as an evangelist and has helped start new churches at St. Ann, Baldwin, Halls Ferry, Ferguson, Florissant and Crestwood.

A nursery will be provided nightly by Mary Dudley for children two years of age and under.

Trone to Leave County Public Defender Post

Robert E. L. Trone, 36, public defender of Madison county, will resign Oct. 31 to devote full time to his private law practice, he said Thursday in a letter Chief Circuit Judge Harold R. Clark. His planned resignation leaves only Edward Moorman of Alton, assistant public defender since January 1968, on the staff.

Trone has served since September 1964, having replaced the late John Morrissey. Trone, who is also Edwardsville city attorney, is in practice with his brother, Doane Kent Trone. Many of those indicted on criminal charges in Madison county are referred to the defender's office due to their lack of funds to hire private attorneys.

A hike to the canal locks is scheduled immediately following school dismissal next Thursday in lieu of the regular meeting. The girls were reminded to have a sack lunch. Permission slips were distributed.

Dow Club Aids Pupil Readiness

The learning disabilities program, a part of the special education program of the Granite City school district, was presented a contribution Thursday evening by the Dow Diamonds for purchase of some of the most recent tools used in development of learning readiness.

There are 25 students at present and two teachers in the program, now in its second year. Membership of the classes changes during the year, with pupils returning to regular instruction when able and others being assigned. All elementary grades are included.

Special Education Director Harold Thomas noted that since many children enter school without sufficiently developed skills for formal learning in the classroom, they are handicapped in the learning process regardless of how intelligent they may be.

"The child whose motor, tactile and visual skills are not properly developed will have great difficulty in the regular classroom, where most learning takes place on an abstract, symbolic level. Thus he fails to keep up with his class, becomes frustrated and discouraged and, in all probability, a behavior problem."

"It would be tragic to wait until the child has experienced repeated failure before doing something about this problem. The learning readiness program helps him overcome his particular difficulty and develop the skills that lead to success in his classroom and in life in general."

The six divisions in the kit being purchased are: practice in general coordination, practice in balance, practice in eye-hand coordination, practice in eye movements, practice in

30 Clergymen End Conference On Economics

Thirty Madison and St. Clair counties pastors completed the second annual Southern Illinois Clergy Economic Education Program on Thursday at Pere Marquette State Park, Gratton.

The conference was coordinated by the SIU-SWC Center for Business Services, of which Arnold G. Franke is director. A meeting is to be held this fall to review conclusions and achievements of the 1968 session and to consider scheduling another five-day session in 1969.

Business, industry, labor and agriculture representatives sponsored the conference and also attended to serve as respondents.

Talks, Responses

The major presentations on various economic subjects were presented by professional economists. Responses were then met upon after each formal talk to express business, labor and agriculture views and to relate their interests to the economic concepts just outlined.

National president of the Clergy Economic Education Foundation is Thomas H. Coughlin, a retired executive of the

Muncie, Ind., Finance Co. Executive director is Dr. Olin W. Davis of Purdue University.

Speakers at Pere Marquette included Dr. Davis; Dr. John H. Hoke, executive assistant to the president of Purdue; Dr. James L. Caldwell, School of Industrial Management, Atlanta, Ga.; James Thompson, editor of "Prairie Farmer"; Gene Graves, director of the Illinois Department of Business and Economic Development; Dr. Dallas Jones, professor of Industrial Relations, University of Michigan; Gerald T. Dunne, vice-president, Federal Reserve Bank, St. Louis; Melvin Wilms, executive vice-president, First Granite City National Bank; Carl D. Bailek, executive vice-president, Illinois Consumer Finance Association; and Dr. Stanley Howlett of Granite City Steel Co.

Founded in 1957

Since 1957, over 140 such conferences have been held in 26 states. The foundation was organized to bring a factual and comprehensive analysis of the American economic system to clergymen of all faiths.

It was noted that many of the major world issues of today are economic in nature, making it important for citizens to understand economics.

As leaders and counselors, clergymen often are called on to interpret economic issues; knowledge they gain is multiplied among the public as they perform their pastoral duties, sponsors commented.

The Journalist Creed

'I Believe In the Profession of Journalism'

I BELIEVE that the public journal is a public trust. That all connected with it, to the full measure of their responsibility, trustees for the public. That acceptance of a lesser service than the public service is betrayal of this trust.

I BELIEVE that clear thinking and clear statement, accuracy and fairness, are fundamental to good journalism.

I BELIEVE that a journalist should write only what he holds in his heart to be true.

I BELIEVE that suppression of the news, for any consideration other than the welfare of society, is indefensible.

I BELIEVE that no one should write as a journalist what he would not say as a gentleman.

That bribery by one's own pocketbook is as much to be avoided as bribery by the pocketbook of another. That individual responsibility may not be escaped by pleading another's instructions or another's dividends.

I BELIEVE that advertising, news and editorial columns should alike serve the standard of helpful truth and that clearness should prevail for all. That the supreme test of good journalism is the measure of its public service.

I BELIEVE that the journalist who succeeds best—and best deserves success—fears God and honors man.

I am stoutly independent, unmoved by pride of opinion or greed of power, constructive,

tolerant but never careless, self-controlled, patient, always respectful of its readers but unfraid.

Is quickly indignant at injustice. Is unwavering by the appeal of privilege or the clamor of the mob.

Seeks to give every man a chance and, as far as law and honest wage and recognition of human brotherhood can make it so, an equal chance.

—Walter Williams, Dean of Journalism, University of Missouri, 1908-1935.

BEST WAY TO SEE IT LIKE IT IS!

Press Freedom the Lifeblood of a Free America

By FRANK H. CRANE, Indianapolis, Indiana, Star

Since John Peter Zenger more than two centuries ago won his fight to establish the point that the truth is not libel, newspapers and newspaper people have been battling for the freedom of the press.

We in the profession guard that freedom so zealously and yet so much as a matter of course that there is an inclination to regard freedom of the press as something which belongs to the newspapers and is for their special benefit.

Not so.

Freedom of the press is the priceless heritage of those who read. Otherwise it would be meaningless to those who write and publish. Censorship does not prevent the publication of newspapers. It only prevents them from being instruments of truth.

When the Inter-American Press Association was designating a Freedom of the Press Day a while ago, its president, Julio de Mesquita Filho, of O Estado in San Paulo, made a statement which was vividly to the point.

"This is a date which actually should be celebrated more by the readers than by journalists," he said, "more by public opinion than by the newspapers representing it, because freedom of the press is the fundamental liberty of the civilization we belong to and the one which marks the transformation of the vassal into citizen and makes him a free man in a democratic nation."

That may seem to be laying it on just a little heavy. Freedom of the press cannot all by itself transform a vassal into a free man, or a tyranny into a democratic nation.

But a free man cannot long remain free nor a democratic

nation remain democratic without a free press.

It is to the readers—to free people—that a free press is vital. The people who work in journalism usually can learn the truth of what is going on, whether they can publish it or not.

But they cannot pass the truth on to the people without the freedom of the press. The people are the great losers.

Which Are the 'Best' Newspapers?

By ROBERT M. WHITE II, Mexico, Mo., Evening Ledger

Can you name the ten best newspapers in America?

Most people will start off naming the New York Times, Wall Street Journal, Los Angeles Times, Miami Herald, Washington Post . . .

. . . And most people would be wrong.

These big, well-known newspapers may be great newspapers. But they are not necessarily the best newspapers in America.

What's more, there is no one in the nation who knows the ten best newspapers.

That's because the only valid way to judge a newspaper is to read every issue in the area it serves. Do that and you get to know its readers and how well the newspaper in question serves those readers.

If the best newspapers are those who serve their readers best, then papers of all sizes have to be judged.

For surely, the quality of the press is not to be confused with quantity of pages per issue or the length of the press run.

Anyway, all newspapers are different.

They are like people because

ers when the press is not free. Censorship is frustrating to journalists. But it forges chains of oppression for the people.

Newspapers are only suppressed by tyranny. People are enslaved by it.

Newspapers will continue to fight when necessary—as they have fought before—to preserve freedom of the press.

But freedom of the press is more than the lifeblood of free newspapers—it is the lifeblood of free America.

Newsman Have No 'Identity Crisis'

By CLARKE THOMAS, Daily Oklahoman & Oklahoma City Times

You hear a lot of talk these days about the identity crisis, especially among young people. "Who am I?" "What am I here for?"

Yet to most newspapermen this has a strange ring. They don't have a personal identity crisis. They know what they are here for, and the reasons provide revealing insights into the most men of the press.

Men and women choose a newspaper career for a variety of reasons, of course.

But idealism, dedication and some notion—no matter how vague—of serving truth, justice, and other noble causes of mankind are factors.

No matter how cynical they may sound on the subject, these are their underlying motivations.

And on most newspapers eventually—after the breaking in on obituary-writing and other "cub-reporter" chores—they have an opportunity, more than most men, to fulfill their idealistic desires.

Whether it is uncovering a scandal at city hall, or probing underlying causes of unrest, or explaining for a reader the nuances of a complex election, they are engaged in man's never-ending search for truth.

In the process they constantly are using judgment. What is essential? What can be left out? What can be phrased, what apt quote can illuminate the matter for the reader?

Then, too, though many newspapermen will not "fees up," there is the excitement of being

Youths Here Look to Adults to Put the 1969 United Fund Drive Over the Top

Young people, appropriately, will be much in evidence at the kickoff meeting at 6:30 tonight at the YMCA for the 1969 Tri-Cities Area United Fund campaign.

School queens, athletic captains, Junior Achievement leaders, poster contest winners, class presidents and club leaders will be among those present, and there will be other youngsters in the audience. Miss Granite City will lead singing and present a vocal selection.

Inclusion of the younger generation in the annual 1969 agency financial solicitation is in harmony with the work of the member agencies, who aid all age groups but place particular emphasis on programs to help young people develop into confident, happy, useful adults.

The United Fund includes scouting and "4-H" activities, service to families, welfare and charitable organizations, Boys Town, youth services, aid to the retarded, children's home and aid services, teen centers, the Salvation Army and health service.

It is not surprising that the "people helping people" fund drive uses photographs of children prominently in its efforts to inform the public of existing needs. In addition to the fact that many thousands of local youngsters benefit directly from the United Fund, there is nothing quite as appealing as the face of a toddler looking to an adult for help or comfort.

This is the precise issue facing local residents, employees, firms and organizations in the campaign opening tonight.

Young people are looking to wage earners for the help they need . . . help that could never be replaced if delayed until "some other time." Their formative years are precious because they will never occur again; each month, each year, brings about many changes in the physical, intellectual and emotional makeup of a child.

Each of us needs to give joyfully, give generously, give now.

Merit System for Sheriff's Staff

The Madison County Board of Supervisors

at its Oct. 16 meeting ought to give serious consideration to the merit system proposed for deputies and other employees of the sheriff's office. It could increase their job security and open the door to career service for county law enforcement officers.

Reduction of patronage may not seem attractive from a political point of view, but we doubt that this is an appropriate time for "politics as usual."

Voters are growing more enlightened all the time and are conscious of the importance of obtaining full value for the tax dollars that go to such governmental offices. The public will be watching the progress of the merit plan with great interest.

Newspaper Week Thoughts On Our Privately-Owned Business of Providing Public Service

(The State Journal, Frankfort, Ky.)

Newspapermen every day make decisions that have important bearing upon every man, woman and child in this country—decisions that may well chart the future of this nation and the world.

The newspaper is the only privately-owned public service business or corporation that is thought of today, by the people, as a public utility. It isn't one in the truest sense, but it is called upon to:

Redress wrongs, real or imagined. Explain complicated government actions. Call public pettifoggers to account. Challenge and expose corrupt public officials.

Chart the true course in fog-bound affairs, be it local or national.

Newspapers are called upon to perform services without fee that no citizen would think of asking a lawyer, a doctor, or other professional man to do without fee consideration.

The why of this is not hard to explain because citizens look upon the newspaper in their community as "their newspaper," and it is supposed to provide these services for the simple reason newspapers have traditionally done these things. It's the foundation of the creed, undefined by many who practice the profession, established by John Peter Zenger when he challenged the colonial governor and established truth as a defense for libel.

Newspapermen today are rightly proud of this tradition and continue to blaze the trail first marked by Zenger. They are also rightly proud that people look upon the newspaper as "their newspaper," the one place they can carry their problems and hope to find an answer.

The dedicated newspaper is the public servant of every citizen and guards this trust zealously. Being human and susceptible to error, no newspaperman is totally satisfied with his daily effort, but goes forth determined to do a better job tomorrow.

The newspaper offers our brightest young people a great and satisfying future in serving their country and their fellow men. There is no greater profession for those who seek to make a living with a real purpose in life.

Progressive, 'Stand Pat' Aldermen May Be Pitted Against Each Other

With the possibility that the number of Granite City council members will be reduced from 16 to 10 or even to eight or seven, extra attention is focusing on the extent to which aldermen "stand pat" or respond to community betterment issues, such as the downtown area renewal plan currently awaiting affirmative council action.

Regardless of the merits of council size, large or small, there seems to be a real possibility that some of the present officials may be pitted against each other if they seek re-election. This being the case, they may wish to give full and prompt consideration to renewal and other improvement proposals, in the awareness that the real test of their leadership is whether their community succeeds or fails. It is a stern test, but a fair one, and voters understandably include officials' voting records among the factors they weigh when going to the polls.

Don't Forget the Bulgarians and Austrians

"One-upmanship" is accelerating in our political process.

Republicans nominated a man of Greek descent. Democrats chose for the same office a candidate of Polish ancestry.

But the Socialist Labor Party is conceding nothing to either of the major parties. Its ticket lists for vice-president George S. Taylor, a Philadelphia electronics technician who was born in Pennsylvania of Lithuanian parents.

Proclamation on Newspaper Week

By PRESIDENT LYNDON B. JOHNSON

National Newspaper Week the trust of their readers and focuses on the important and match it with the dependability indispensable role of the free and precision it deserves.

It salutes reliable news coverage and warns against distorted public information. It calls for honesty, integrity and social conscience in pursuit of a cherished American tradition.

Fellow Americans from all walks of life join me in acknowledging the debt we owe to those newspapermen who have been the shock troops of a nationwide human awakening, and the leaders toward a society free from fear and prejudice.

They have set a standard for community action—and they have earned our thanks for their constructive service.

Public service, as men and women everywhere depend on their newspapers for a chance to participate more fully in fashioning the world around them.

And everywhere is heard the hope that our papers will reflect

Newspapers...A

Continuing Dream

By VERLE RADEMACHER, Menager County News, White Sulphur Springs, Mont.

With a beat-up hand-fed press, a couple cases of type, some newspaper, and a spare "balled" slab in his saddle, the pioneer editor hitched a team to his spring wagon and followed the sun.

With Horace Greeley's "Go west, young man" ringing in his ears, the early newspaperman followed the expanding nation with his portable newspaper.

Where the rails ended and a tent city was pitched, he was there, chronicling the happenings at "rail's end."

A new mining strike in the hills meant another move to follow the shifting, unsettled people seeking for the utopia that HAD to be there somewhere.

In a tent, by lantern light and using lampblack and oil for ink, the pioneer editor turned out the news of the growing nation. Among the isolated homesteaders, miners, railroaders and ranchers, the newspapers were read and re-read, each gleaming every last bit of news possible from the printed words, before passing the tattered pages on to his neighbor.

With the permanence that followed rapid expansion, the tramp editors settled in communities that had the promise of the "utopia" that they had been searching for.

A false-fronted frame building supplanted the tent and wagon of the wandering newspaperman.

With "roots" in a community, the newspapermen began the arduous task of building the communities that they settled in.

With each new civic betterment project, the local newspaperman was there—reporting, editorializing and helping in any way possible.

Community pride and progress were bunched in bold headlines for all the world to see.

Apathy was trampled underfoot as the newspaperman, astounded, cajoled, extorted or shamed his readers into action.

Thus our young nation was molded by the unending efforts of its newspapermen and women.

Black type upon white paper told of progress and of failure, of life and of death, of hope and dreams—everyday life.

Just as in days of long ago, the newspaper still is the vital community link with the outside world.

News is gathered from the printed page at the convenience of the reader and can be read and re-read to obtain the true meaning behind any article of importance.

Community events are covered with a depth impossible in any other medium. Advertising is not an intrusion, but is a part of the whole newspaper.

Newspapers touch the daily life of all of us.

Today's newspapermen are not unlike those of yesterday. Community pride and progress are still the bywords that many live by.

Unselfishly devoting himself to his community, today's newspaperman is a vital key man in the community. His advice and counsel are sought on myriad programs.

Many times he is asked to "sell" ideas for progress. Hours of long, hard work are spent for his fellow man and community without even a "thank you."

But, deep down, today's newspapermen and today's newspapermen are following the paths laid out by pioneers in the field and would instantly bristle at the suggestion that anything less than "all out" in their endeavors would be acceptable.

You see . . . they, too, have a dream!

Juvenile Officers Hear Report on VD Upswing

An upswing in the incidence of venereal disease in recent years, especially among persons between 15 and 24 years of age, may have the nation headed for an epidemic, a Belleville pathologist told members of the Metro-East Juvenile Officers Association last week.

Dr. Peter J. Soto Jr., of St. Elizabeth's Hospital, Belleville, and chairman of the public health committee of St. Clair County Medical Society, addressed the association at Augustine's Restaurant. He was introduced by Granite City Police Sgt. Harry L. Mitchell, association president.

The physician said the recent resurgence of venereal disease is due to the advent of drugs for the effective treatment of these diseases, which, he commented, has caused a laxity on the part of doctors, public health officials and the general public. He also blamed the availability of pornography and a general emphasis today on sexuality for young people.

Dr. Soto pointed out that reported cases in 1967 for the East Side Health District nearly doubled those tabulated in 1965. Last year, 102 cases of syphilis and 1185 cases of gonorrhea were recorded by the district and he estimated that only about 10 percent of the actual number of cases are reported.

He strongly emphasized that the alarming increase in these serious diseases can be checked only by a concentrated program of sex education in local schools and the public media.

Forty persons attended the dinner meeting, including Assistant Police Chief and Mrs. George Teller, Det. and Mrs. Leo Willis, Sgt. and Mrs. Michael Devine, Juvenile Officer and Mrs. Susan Gagliardi, all of the Granite City police department; William Fanning, Madison youth officer; and Julian Smith of Granite City, a guest. Mrs. Harry Mitchell also was present.

USO Lists Items 'Most Wanted' by Overseas Servicemen

The second list of "Yule Mail Call" names and addresses appears today together with information on mailing dates and correct wrapping of packages destined for overseas.

Items most frequently requested by servicemen in Vietnam, as determined through a USO-conducted survey made this year, also are listed.

Additional "Yule Mail Call" lists will be published as information becomes available. It is suggested that readers clip-out and retain the lists as they are published.

Relatives, friends, church and service groups, former employers and other individuals are invited to provide the servicemen or woman's name for inclusion in the third annual "Yule Mail Call" program to be sponsored by the newspaper.

Card or Packages

It is hoped the pre-Christmas service will encourage Quad-Cityans to add the local and national lists to their Christmas mailing lists and send greeting cards, letters or packages, as well as help to cheer servicemen who are away from their homes and loved ones during the coming holiday season.

To ensure proper delivery, it is important to accurately list the servicemen's name, rank, serial number and address, including APO and FPO number. Those submitting names and addresses of Armed Forces personnel serving at home or abroad are asked to send in the information by letter or postal card, or bring the written details to the Press-Record, 1315 Delmar avenue.

Raymond Uram of Granite City, a member of the USO National Council, said today that a recent survey conducted by the United Service Organization among servicemen currently serving in Vietnam, disclosed the following items are most frequently requested:

What They Want

Blank assorted greeting cards; plastic containers for powdered drinks; instant breakfast drinks; shaving equipment; shampoo; insect repellent; Q-tips; 9-volt radio batteries; wallet-size calendars; canned foods — meat, fruits, juices; shake-a-pudding; fruitcake, candy, nuts; gum; cigarettes and tobacco in tin or plastic containers; canned fruit; pre-recorded music tapes; Christmas stockings; ballpoint pens.

Posters of statehood landscapes; self-sealing envelopes; 3" and 7" reels of recording tape; small mirrors; small transistor radios; dry soap; key chains and key cases; first aid kits; medicated cleaning cream; foot spray; toothbrushes; toothpaste; soap; miniature chess and checker sets; model kits—airplane, car, train; paperback books; crossword puzzles; shoe-shine equipment; medical scrub brushes.

Heavy work socks and foam insoles for combat boots; patching kits for repair of boots, ponchos and rubber mattresses; plastic knives, forks, spoons and flower and vegetable seeds; deodorant; candles; miniature Christmas trees and decorations; yuletide wrappings, ribbons and tags; and photographs of girls—possibly the most requested item of all, Uram said.

One-Inch Paint Brushes

Also frequently sought by military personnel in Vietnam are one-inch paint brushes, Uram said. He explained that the paint brush is found highly useful by the combat soldier in cleaning his M-16 rifle.

Combat troops have experienced recurrent jamming of the rifle, due to high humidity and other factors found in Southeast Asia, and many report the

Local residents are invited to include the servicemen on their Christmas mailing list and send greeting cards, letters or packages, thereby helping to brighten the coming holiday season for military personnel who are away from their homes and families. Early mailing is recommended.

17 Jr. Achievement Firms Now 'Open for Business'

Sixteen teenage manufacturing companies and a bank will start operations today as the Granite City Junior Achievement Center at 3307 Wabash avenue opens its door for the 1968-69 year.

More than 330 high school sophomores, juniors and seniors from area schools will take part in this year's Junior Achievement program here.

Companies meet for two hours on one night each week. The center is open Mondays through Thursdays. Students joining the program will be assigned to special sessions held at their respective high schools.

Production, Sales

Starting this month, the companies, which are made up of from 20 to 30 young people, will go into a manufacturing operation. The members of each company incorporate, elect officers, choose a prod-

uct, and carry on all the functions of a small business.

The banks offer full services from company checking accounts to savings and the lending of money.

Before each company starts operations, its members will sell stock at \$1 per share to the general public in order to raise operating capital.

20% Growth in Program

This year's participation represents nearly a 20% increase over last year.

Each company is furnished with an adult team of advisers.

Area firms furnishing advisers and sponsoring Junior Achievement companies are: First Granite City National Bank; a teenage banking company operating four nights each week.

Monday nights—General Steel Industries, four companies.

Tuesday nights—American Steel Foundries, two companies; Dow Chemical Co., two companies.

Wednesday nights—Granite City Steel Co., four companies.

Thursday nights—A. O. Smith Corp., two companies; Union Division, Mills Laboratories, two companies.

GC Redistricting Is 'Big Topic'

Action on last week's court order for redistricting Granite City for seven wards instead of eight is expected at tonight's 8 o'clock council session—since the city is faced with a Nov. 5 deadline for completing the task.

Reports are that a group of council members already are at work on seven-ward plans for the city, with no regard to the committee that was named earlier this year, consisting of the eight aldermen whose terms expire next April.

One plan was presented about four months ago in which the Fourth Ward would be split between the Third and Fifth Wards, but it never reached the council floor.

Alderman Norn of the Fifth Ward announced at the time he was honored on his 25th anniversary as an alderman last May that he planned to retire upon completion of his term, and Rutledge of the Fourth Ward has said he does not plan to seek re-election as an alderman.

That would leave Basarich in the Fifth Ward, and Alderman Green of the Fourth Ward would be in the proposed new Fifth Ward. Poulos and Boyd in the Third Ward would not be disturbed.

The court order handed down last week by Associate Circuit Judge L. H. Strepper III also called for equalization of ward size by population as closely as possible, and by shifting city precincts, based on population counts provided in the special U. S. Census in 1967, the initial plan followed such a procedure, it was learned.

Granite City is limited to seven wards because the population count is under the 50,000 specified by state law. A legal opinion on the petitions filed two weeks ago calling for a special vote to reduce the size of the alderman board from seven to five was expected from the Illinois Municipal League, but it is not known if they will arrive in time for tonight's meeting.

Council members have questioned if such a vote can be held with the Nov. 5 national election, as was requested by the 1800 petitioners.

As yet, no formal challenges have been filed against the petitions. A group of citizens is asking for the vote to have one alderman instead of two for each ward.

Highway Dept. To Clear Weeds Off Rt. 203 Site

High weeds that have engulfed the site of the old White Swan night club along Route 203 will be cut by the Illinois State Highway Department and two junk autos abandoned there will be removed by the Madison county sheriff's office, it was reported Friday by state highway officials at French Village.

Robert Kronst, district engineer at the French Village highway office, said the weed cutting is the responsibility of the department, because the area is on right-of-way owned by the state, but that the sheriff's office will be asked to remove the junk autos because the highway department has no means of disposing of the junk.

He said the sheriff's office has cooperated in similar instances in the past. The action followed a complaint by a resident of the area who had reported unsightly appearance of the site and the presence of the abandoned junk autos to the sheriff's office, but that nothing was done about it.

Kronst said the highway department makes every effort to keep its right-of-way along highways in trim shape, but that "there are so many of these additional problems come up that we sometimes can't keep up with all of them."

The problem of maintaining the right-of-way along highways, cutting the grass and removing debris has become such a vast project that District 8 of the highway department, headquartered at French Village, spends about \$1 million of its budget each year for these activities.

On a year-around basis, including cost of ice and snow removal during the winter, the district spends about \$4 million, Kronst said.

He said that the last summer season for which a breakdown of figures is available shows a total of \$875,000 was spent for grass cutting along the 1700 miles of highway within District 8, which encompasses 11 counties, including Madison county.

Debris Removal Costly
Debris removal—the job of picking up dead animals, rocks, pieces of lumber, garbage, trash and a limitless number of beer cans—cost an additional \$375,000 during the same season, Kronst noted.

"If the people only would realize that they are costing the state many unnecessary dollars by their habit of littering the highways, we would have a lot more money to spend on highway construction," he added.

"I would like to add," Kronst said, "that the owners of vacant property joining Highway right of way could do much to help the appearance of our roadways by keeping those lots free of weeds, trash or other unsightly articles."

Bullet or Pellet Damages Auto on McCambridge

A bullet or an air-gun pellet struck and damaged the windshield of a car driven by Ruth Prepon, State Park Place, as she was driving north on the south approach of the McCambridge street viaduct in Madison, she reported to Madison police at 3:30 p.m. Thursday.

The woman said she thought the car was struck twice but could find no other signs of damage. Madison police said they searched the area but found no one with a weapon.

Truck, Car Collide

A car driven by Roland T. Hill, 217 Iowa street, was damaged in the right turn when struck by the rear of a tractor trailer truck driven by Charles M. Worley, 38 Mikol drive, in the 1000 block of Madison avenue at 11:20 a.m. Friday. Wood told Madison police he was headed south when a car pulled into from the curb, forcing him into the second lane, where the truck collided with Hill's car.
